COMMENTS ON TWEED'S STATEMENTS. Senator Bixby was found Thursday evening at

the rooms of the Siunteipal Society, in an apparently tranquil state of mind. "I shall trouble myself little," he said, " with the stories of William M. Tweed. I look upon him as the champion fraud of the age, and his socalled 'testimony' is nothing more than a transparent political maneuvre. At the proper time I shall speak very fully upon this subject, but at present I prefer to J. B. Cornell, of the firm of J. B. & J. M. Cornell, iron

manufacturers, stated on Thursday that he had read Tweed's testimony in relation to the firm's bills for work done on the County Court House. All he knew about the matter was that the bills rendered were for the exact amount of material furnished, and at the exact amount of material furnished, and at the exact prices named in the contract. All the work was done in strict accurchance with the contract in every way. The firm never advanced one cent for any purpose, and the buils would bear the closest scruliny. The prices paid by the city were less than those received on contracts for similar work done for private persons, banks, insurance companies, etc., during the years in which the work was done for the city. Mr. Cornell could not insurine who the person was, who, as the firm's representative, "was always laughting and always around the Court House." He binnelf did not recollect of having spoken to Mr. Tweed about the work; he never made any contract with Mr. Tweed.

The Board of Excise revoked yesterday the heense of John P. Wendolph, of No. 346 Eighth-ave. The counsel for Wendoipa has appealed from this decision, on the ground that his clishit was dealing under an allegal heense, which, therefore, could not be revoked. The Union Trust Company of this city, as trustee for the bondholders of the Chicago and Lake Huion Railroad Company, made application in the United States Circuit Court for the Eastern District of Michigan for a decree of foreclosure and sale of the road, which was granted July 10, 1877. THE TITLE TO WARD'S ISLAND.

There has been for years a protracted litication as to the ownership of the larger part of Ward's Island-the part which has been gained by filling in-the suit being in form a partition suit in the Supreme Court, by Alfred E. Bench against the City and about 150 other defendants. The suit grew out of a question as to the right to the land under water lying around Warsi's Island, which has been reclaimed. Mr. Beach claimed all such land on 3,000 feet of water front. The amount reclaimed is about 300 feet deep. The remainder of the water iront, about 9,000 feet, is desired by the other defendants, if the plaintiff's claim against the city is established. The city—the only real defendant—claims the whole tract below the old legis-water mark, which is questioned in this suit. Five years ago Judge Ingraham decreed a partition of the property in dispute, but it was not made until pesterday, when a final decree was made, from which the city can appeal. Mr. Beach claims that his shire is worth millions, but he is willing to compromise with the city. The Corporation Counsel proposes to contest the judgment. Dannis McMalton has been, throttshout, Mr. Beach a counse, while other claims proposes to contest the junctions, while other claim been, throttonout, Mr. Beneh's connect, while other claim ants have been represented by John S. The officers refused to pay money to depositors except in sums less than \$10 or on sixty days' notice They still maintained, however, that if they were They still maintained, however, that it they were not pushed too hard, they could resume business successfully with a reasonable surplus. William Stewart, a depositor to the amount of about \$500, and one of those who neglected to give the sixty days' notice, made the application for a receiver yesterday, through his counsel, Gen. B. F. Tracy. Gen. Tracy chained that, taking the banking building at its market value, the bank was modvent; that the bank practically suspended business on August 15; that after the sixty days required matured, the creditors who gave notice would be paid in full, while others, like the petitioner, would receive little or nothing, and thus a manifest injustice would be done. He said that there was no allegation of mismanagement on the part of the bank officers, and the present condition of the institution ind been brought about through no fault of theirs, but solely on account of the depreciation of real estate soon after the construction of the expensive bank building.

Gen. Philip S. Crooke, who appeared for the bank, said that he could not deny the allegations of the plaintiff. The bank building, at the time of its construction, was approved by the Bank Superintendent. Taking the building at its cost, the bank was solvent. Both parties approved of the appointment of Mr. Ogden, and he will enter upon his duties at once. not pushed too hard, they could resume business
